Learning Pyramid

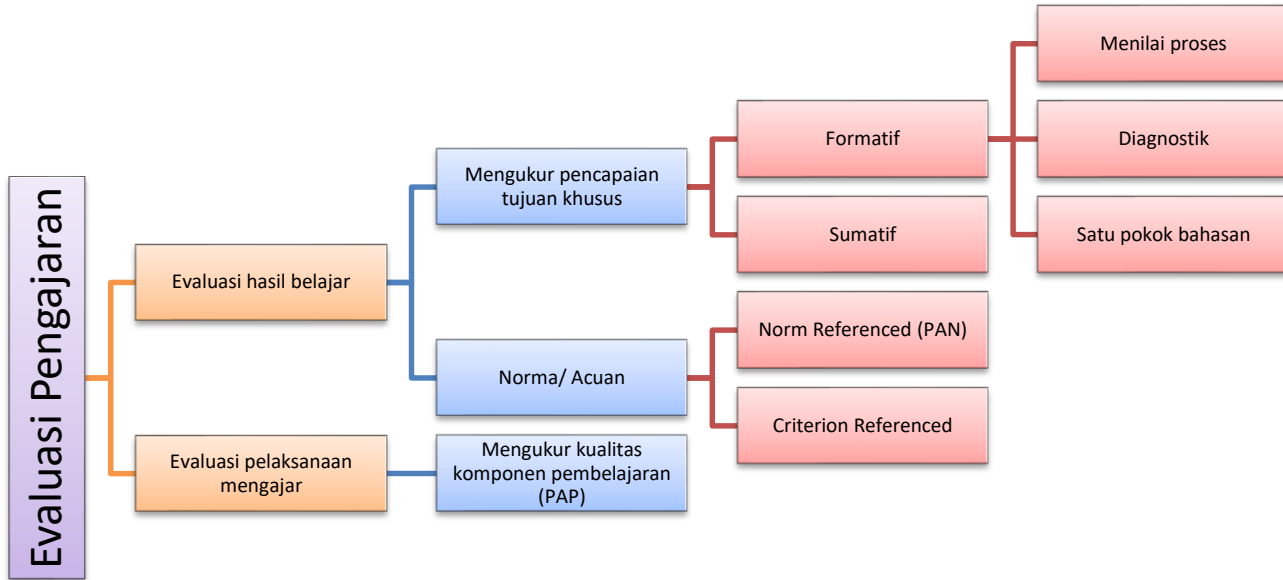

:-| The use of problem-based learning to learn new content does not have a positive learning effect. But there is a positive learning effect if you use problem-based learning to further explore and remember something that the learner already knows.

MYTH 6

You Learn Nothing from Games Other than Violence

The use of games in education: people seem to be either for it or against it. But what does the research say? A summary of the professional literature about the learning effect of games carried out by researchers (and gamers) at the University of Connecticut indicates that there is evidence for a learning effect with regard to languages, history and (providing you have a Wii-style console) movement, but that there is no evidence for a similar effect with mathematics and the sciences. A comparative study of the effect of using either a game or a PowerPoint® explanation for the learning of biology and electromechanics concluded that the games — even though they had been consciously designed for learning — were less

Evaluasi Pengajaran

Penyempurnaan Pengajaran

Penyempurnaan

- Tindak lanjut dari hasil evaluasi pengajaran
- Memperbaiki semua komponen pembelajaran
- Prioritasisasi perbaikan komponen pembelajaran
- Bisa dilakukan sendiri oleh guru, atau dengan bantuan pihak lain
